The sidewalk boulevard at School and Gibsons Way outside Kern's Plaza is midway through an upgrade, thanks to the Town of Gibsons. Responding to comments from a local business owner, the Town joined forces with artist Jan Poynter, who transformed the corner's highly visible utility box into an attractive sign directing traffic to Gibsons Landing, complete with walking tour map. When the rains return this fall, Parks Department staff will begin replacing the high-maintenance lawn with native and other plantings.
